Ben/John:

Duke has closely reviewed Lucas's direct testimony and highlighted (and designated with Begin/End Confidential markers) all of the information and graphs that need to be redacted. Hopefully this can essentially serve as the confidential version you send to the Commission and provides a clear basis from which you can establish new redactions for the public version.

Please let us know if you decide not to do this, so that we can know which version to keep as Lucas's redacted version in our files.

Thanks,
Rebecca
